Biography

Dhapa is the younger brother of celebrated artist Gunybi Ganambarr. He usually lives between Gangan and Dhanaya communities. Encouraged by his talented brother, Dhapa started to produce works of fine quality in 2009.

In recent years Dhapa has been producing fine quality yidaki, that are now sought after by musicians and collectors world wide. His work is of consistently high quality. Dhapa often travels far throughout the Miwatj region to areas where there are excellent naturally occurring stems waiting to be made into great yidaki. He often works together with Marikuku Wirrpanda.
